## UPDATES FROM FoodSafety4EU

### New project cooperation with Mycotwin

The FoodSafety4EU network grows up again! We have finalized the agreement with [Mycotwin project](#) - Enhancing research and innovation capacity of Tubitak MAM food institute on management of mycotoxigenic fungi and mycotoxins to promote the networking activities.

The EU-funded project aims to significantly strengthen a defined field of research (researches on mycotoxigenic fungi and mycotoxins) in TUBITAK by linking it with CNR and UV. We are establishing a cooperation to carry out common activities such as supporting in social media through re-tweet or like, and knowledge exchange, also participating to consultations or Projects meeting and events.

### Don't forget to read the FS4EU latest contents about #FoodSafetyAwarenessMonth!

June has been the **#FoodSafetyAwarenessMonth!** [FS4EU](#) has been really committed to explore new definition, videos, article written by experts and more. Lots of content shared on FS4EU social media to enjoy a unique journey day by day! **STAY TUNED & FOLLOW US!**

## NEWS

on the Wiley Online Library

### Technical assistance to support discussions on national risk management measures to address possible shortages of food and feed supply as a consequence of the Russian invasion of Ukraine

Some EU Member States depend to a great extent on feed imports from Ukraine. Following the Russian invasion of Ukraine, the supply chains are interrupted, and stakeholders informed the European Commission about possible imminent shortages, mainly for wheat, barley, maize, sunflower seeds, rapeseeds and soyabeans used for feed purposes. As a consequence, they announced to take steps to find alternative sources for importing these products.

### European Parliament committee takes so-so decision on improving product safety law

There are pluses and minuses for consumers in today's European Parliament internal market committee vote on reforming the main EU product safety law. Reforming this law, the General Product Safety Directive, is necessary as it no longer reflects today's reality of connected products and online shopping. BEUC applauded last year's European Commission proposal to reform the law into the new General Product Safety Regulation.

## Shifting Urban Diets- Methods for a Planetary Health Diet in Copenhagen

“Shifting Urban Diets: Operationalizing Food System Targets for Health and Sustainability” worked with the City of Copenhagen and partners to translate the findings of the EAT-Lancet Commission on Food, Planet, Health into local action. The three-year project (2019-2021), co-funded by EIT Climate-KIC, helped demonstrate how scientific targets for food systems can be implemented at a city scale, with Copenhagen as a prototype and other cities consulted throughout.

## EVENTS

### FS4EU Workshop: “Funding for Food Safety – Exchange of Experience Workshop”.

Representatives of different funding organizations from several European countries will contribute to planning and discussing the challenges and opportunities related to research funding, as a follow-up to preceding in-depth interviews that the FSOLab 2 conducted with them.

**Wednesday the 27th of July, 2022, starting from 9:00 A.M.-12:00 A.M. (CEST).**

This workshop will be the first step to set up a “Food Safety Knowledge Network for the alignment of transnational funding cycles and research priorities as fundamental part for safe and sustainable food system”  
*Are you interested to join the Knowledge Network?*

#### Contact and info:

**Prof. Michael Rychlik** ([michael.rychlik@tum.de](mailto:michael.rychlik@tum.de)), FSOLab 2 Manager, Technical University of Munich

**Dr. Tamara Stelzl** ([tamara.stelzl@tum.de](mailto:tamara.stelzl@tum.de)), FSOLab 2 Manager, Technical University of Munich

**Veronica Lattanzio** ([veronica.lattanzio@ispa.cnr.it](mailto:veronica.lattanzio@ispa.cnr.it)), FS4EU Coordinator

**44th ESPEN Congress on Clinical Nutrition & Metabolism | 3-6 September**

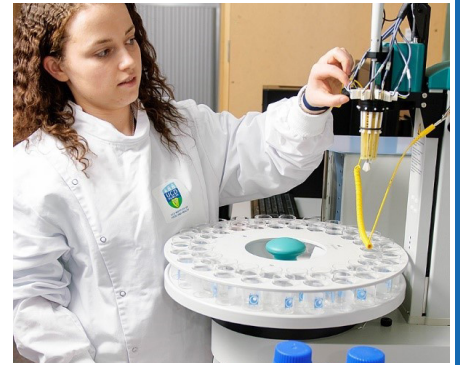

This Congress is the result of the collaboration of three countries: Austria, Croatia and Slovenia. All three neighbouring countries are small in size, but great in shared history, architecture, art, music, landscape beauty, delicious national specialties, and – most importantly – people. We believe that this common abundance of history, culture and science is a guarantee that the ESPEN Congress 2022 will be an outstanding congress in an unforgettable setting.
