From FoodSafety4EU to the EU Food Safety Platform *our 1st year journey*

EU FOOD SAFETY FORUM

28-29 November 2023
The 1st EU Food Safety Forum
and
the ToR Signature

*«The consortium is advised to keep the Agency informed and communicate information about the further development of the platform and the Forum. All platform members need to invest time and energy in the platform and the Forum to establish these innovations sustainably»
(from the final evaluation Report of FS4EU project).*

GREEN AND RESILIENT
FOOD SYSTEMS
EVENT AGENDA

Food 2030 Conference
4-5 Dec 2023
Exhibition @Food Village

Summary of relevant research and innovation projects

The Food 2030 projects relevant to this pathway include those presented in the following table.

PROJECT NAME & FUNDING INFORMATION	PROJECT AIM/OUTCOME
<p>FoodSafety4EU Multi-stakeholder platform for food safety in Europe</p> <p>2021–2023, EUR 3.0 million (Horizon 2020), CSA, Food 2030</p>	<p>Among other objectives, this project aims to create a platform for stakeholder engagement on food safety.</p>
<p>SAFI Safe food for infants in the EU and China</p> <p>2020–2024, EUR 4.0 million (Horizon 2020), RIA, Food 2030</p>	<p>This project plans to improve risk-based food safety management of biohazards through omics and predictive microbiology.</p>
<p>DIRECT Digital technologies as an enabler for a continuous transformation of food safety system</p> <p>2020–2023, EUR 4.1 million (Horizon 2020), RIA, Food 2030</p>	<p>This project aims to develop a standard-based, modular, big-data-enabled platform capable of predicting the food safety parameters of food products based on data collected in real time using cost-efficient sensors and incorporating blockchain processes.</p>

Food2030 Pathway
Food Safety System of the Future

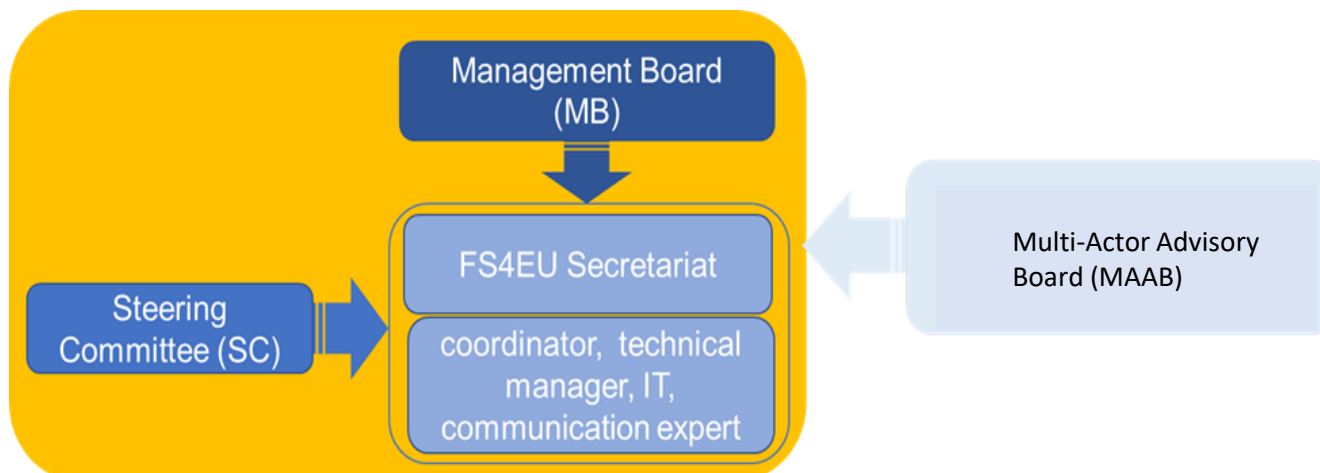

Growing together to shape the EU Food Safety Systems

Kick off Meeting

May 21 2024
online

Platform Kick Off

- welcoming the members
- presenting the platform roadmap
- officially setting up the platform governance
- defining the action plan – codesign of the 2nd EU Food Safety Forum

Strong Commitment by CNR

- **Legal entity:** no-profit association founded on May 21, 2024
- **Powered by CNR ISPA**
- Bari, Via Amendola 122/O, Italy
- FISCAL CODE: 93549650724

The screenshot shows the website for the EU Food Safety Platform. The navigation bar includes: CO-CREATION, DIGITAL TOOLS, KNOWLEDGE CENTER, NEWS AND EVENTS, ABOUT, and JOIN US. The main heading is 'CENTRO EUROPEO PER LA SICUREZZA ALIMENTARE E SOSTENIBILITA' EU FOOD SAFETY PLATFORM' with the subtitle 'Associazione per la promozione della sicurezza alimentare e sostenibilità'. The content is organized into three sections:

- EU FOOD SAFETY PLATFORM:** La piattaforma EU FOOD SAFETY PLATFORM è stata realizzata progetto Europeo "FoodSafety4EU" qui presentato (finanziato dalla Commissione Europea, programma Horizon 2020 - GA 101000613). La piattaforma rappresenta il centro di competenza e conoscenza per la sicurezza alimentare in Europa, ponendosi come interlocutore qualificato e privilegiato nei confronti degli attori del sistema alimentare, raggruppando un network multi-stakeholder in processi partecipativi e strategici.
- IL CENTRO EUROPEO PER LA SICUREZZA ALIMENTARE E SOSTENIBILITA':** L'Associazione EU Food Safety Platform - Centro Europeo per la Sicurezza Alimentare e Sostenibilità è stata costituita nel 2024, con la finalità di alimentare e sostenere la crescita della piattaforma.
- Il network e i 4 Hubs in Europa:** La piattaforma coinvolge una rete di oltre 80 Partners provenienti da diverse aree europee, denominati "hub", che hanno aderito formalmente durante il progetto FoodSafety4EU. Più di 30 Partners hanno rinnovato la membership e nuovi membri si sono affiliati attraverso la firma del ToR (Terms of Reference). I nostri Partner cooperano all'interno della piattaforma condividendo notizie e informazioni, partecipando a sondaggi e consultazioni, contribuendo ai nostri processi partecipativi, dando input per la co-creazione della SRIA - l'Agenda Strategica per la Ricerca & Innovazione - fornendo così una visione regionale/nazionale nella definizione del Sistema di Sicurezza Alimentare in Europa.

- From **23** to **34** new members signing the **ToR**
- 5 EU projects** on 2 **National projects** ongoing
- 7 new proposals** submitted/in preparation (*HEurope, Prima, COST*)
- 18 events/engagement activities** (*5 training, 7 conferences, 6 participatory workshops*)
- Preparing **the 2nd EU Food Safety Forum**
- A **podcast** series launched: *Young Minds of Food Safety*
- From **2800** to **3606** followers on linkedin (74.716 impressions - 1.801 reactions)

👉 **Hot themes discussed** (-> publications, reports, training modules)

From Safety, to Security, and to Food Ethics

Biotechnology & Food Safety

Artificial Intelligence & Food Safety

Innovation & Food Safety

Future research directions

Education and transdisciplinary skills for young food scientists and innovators

👉 Formal and Informal interactions with **EC, EFSA and EU Agencies, Ministries**

👉 Joined the **FOOD2030 Project Collaboration Network** (77 EU, National, Regional projects)

EU & global

Living Labs
White Paper

Risk Assessment digital toolkit
Policy briefs
Accelerator Platform

Future research directions through
participatory workshops

Linking the FS4EU knowledge center
and FoodSafer Digital Hub

Building the multi-actor approach
Stakeholder engagement

National

Net Map Analysis for
sustainable productions

Regional

Apulia Region - Metropolitan
City of Bari – cycle of multi-
actor workshops
