

**Conference venue:**

CNR – SALA MARCONI,  
Piazzale Aldo Moro 7, Rome, Italy

The EU FOOD SAFETY PLATFORM, hosted by CNR ISPA, Italy is organizing the **3rd EU FOOD SAFETY FORUM** in Rome, Italy from **2 to 3 December 2025**.

This international event will be a strategic gathering for the scientific community, industry representatives, policymakers, and stakeholders engaged in food safety. It will also serve as a milestone meeting point for members and supporting partners of the EU Food Safety Platform.

During the Forum, leading experts and international scientists will present the latest results from ongoing EU projects, focusing on strategies that place food safety at the heart of Europe's food system transformation. With its strong emphasis on multi-actor collaboration and the science-policy-society interface, the Forum will provide a unique opportunity to expand networks, foster cooperation, and co-design innovative approaches for a safer and more sustainable food future.

We are working to make the EU Food Safety Forum a unique and high-impact event, bringing together a wide audience of academics, institutions, industries, associations, and civil society.

We warmly invite your company to sponsor this event. Sponsorship offers a valuable opportunity to showcase your commitment to food safety and sustainability, engage with a diverse international audience, and strengthen collaboration with key actors in the field.

A range of sponsorship options is available (see attachment), adaptable to your company's interests and possibilities.

We hope you'll find interesting this proposal, so we can strength our cooperation!  
Best regards,

EU FOOD SAFETY PLATFORM Coordinator
