Journal **Food Safety and Risk**

Food Safety and Risk is a fully open-access, peer-reviewed journal dedicated to advancing food safety through science and published under the BMC brand.

The journal aims to create a forum for scientists researching food safety, including social, economic, and systemic approaches, to contribute to this objective.

Open access

All articles published are made freely and permanently accessible online immediately upon publication, without subscription charges or registration barriers.

Innovating Together for Safer, Sustainable and Competitive European Food Systems

This Collection will highlight selected cutting-edge research and innovation outcomes presented at the 3rd EU Food Safety Forum. The Forum will gather multidisciplinary experts to share scientific advances addressing the evolving challenges of food safety within the bioeconomy and competitiveness context.

Contributions are encouraged by Forum participants and EU Food Safety Platform members (subscribers). *This collection is for EU Food Safety Platform community only.*
